

## PAVER EDGING

### 1,83 m (6') LOW PROFILE PLASTIC PAVER EDGING

CUT on THE GO Design System

Techniseal's LOW PROFILE PLASTIC PAVER EDGING is the only edging that can be cut directly on the ground, making installation a breeze. Lengths join seamlessly with the easy snap connections.

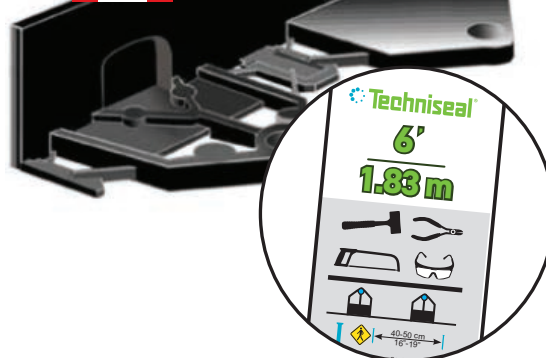

It's design allows installers to double-spike, eliminating any risk of frost lift. It is also handy for spike off-set, in case of obstruction below grade.

For maximum strength at all times, use Techniseal's Paver Edging Nails

- Heavy-duty 20,3 cm (8") nails
- Perfect for use with Techniseal hardscape edgings
