RG+ Concrete Adhesive

(70971142 (141-791) / 300 mL - 70975912 (141-792) / 828 mL)

UPDATE
June 02, 2020
Make sure that you have an up-to-date technical data sheet in hand by consulting our Web site: techniseal.com
Canada and U.S.A.: dial 1 800 465-7325
Others: dial (514) 523-8324 (Canada)

APPLICATIONS
• For pavers, slabs and retaining walls
• Any concrete or masonry surface

PROPERTIES
• Premium advanced formula
• Works on wet or frozen surfaces
• Ideal for retaining walls

DESCRIPTION
TECHNISEAL RG+ CONCRETE ADHESIVE is an elastomeric resin based compound that is specially formulated for the construction of concrete hardscapes. Remaining flexible, it is ideal for the construction of retaining walls. Most effective on dry surfaces, it can also be used on wet or frozen surfaces. It provides a strong bond and resists the elements (water, frost, etc.).

The RG+ Adhesive meets or exceeds the following standards: ASTM D3498, APA AFG-01, ASTM C557

DIRECTIONS
Surface should be clean and ideally dry. Apply a maximum thickness of 1 cm (3/8”); join pieces together immediately with a slight twisting motion. If surface is wet or frozen, curing will take longer.
Cleaning of tools: Use mineral spirits.

COVERAGE
• A 300 ml tube, a 1 cm (3/8 in) bead covers up to 5 m (15 ft.)
• A 828 ml tube, a 1 cm (3/8 in) bead covers up to 14 m (41 ft.)
**STORAGE AND SHELF LIFE**

Product must be kept in its original, unopened and tightly sealed container, and stored in a dry and well ventilated place with controlled temperature (5°C to 25°C). Keep sheltered from weather and direct sunlight. In proper storage conditions, the product’s shelf life is 2 years following production (see date on packaging).
