Others: dial (514) 523-8324 (Canada)

APPLICATIONS

• Sealed or bare surfaces
• Concrete floors, pavers, slabs, natural stone and masonry
• Concrete, clay, stone, marble, granite, slate, etc.
• Driveways, pool decks, patios, commercial parking lots, pedestrian areas, terraces, workshops, factories, etc.

PROPERTIES

• Removes motor oil and grease
• Ideal for sealed surfaces and fresh stains*

*For bare surfaces and older, more stubborn stains, use Techniseal® Professional-Grade Oil & Grease Remover (141-591).

DESCRIPTION

Techniseal® Dirt & Grease Cleaner for concrete and masonry is the most effective product available for removing motor-oil and grease (barbecue) stains from concrete floors, pavers, slabs and masonry. It dissolves, dislodges and encapsulates grease, thoroughly cleaning without leaving any oily film after rinsing.

DIRECTIONS

BEFORE YOU BEGIN

• Wear rubber gloves and safety goggles. • ALWAYS TEST on a small hidden area to ensure that result meets your expectations.

APPLICATION

On a sealed surface, wet the stain before applying product; on a bare surface, apply dry. Cover the stain generously with Dirt & Grease Cleaner; let work for 2 to 3 minutes; reapply product and scrub with a small nylon scrub brush such as the Techniseal® Stain remover brush. Do not let product dry on the surface; rinse thoroughly. Repeat if necessary.

IMPORTANT: An oil spot that has penetrated the material may resurface within 24 hours following cleaning; if this occurs, lighten the stain using Techniseal® Professional-Grade Oil & Grease Remover.

*For bare surfaces and older, more stubborn stains, use Techniseal® Professional-Grade Oil & Grease Remover (141-591).
