Make sure that you have an up-to-date technical data sheet in hand by consulting our website: techniseal.com
U.S.A. and Canada: dial 1 800 465-7325
Others: dial (514) 523-8324 (Canada)

APPLICATIONS
• For concrete pavers
• Recommended for driveways, parking lots, patios and walkways

PROPERTIES
• Enhances the color of pavers
• Forms a protective film
• Stain guard

DESCRIPTION
Made of acrylic and plasticizers, WET LOOK (WL4) Protector is specially designed to protect concrete pavers. With its high solid formula, it prevents deteriorations due to chemical products such as de-icing salts, while providing resistance to acids and alkalis. Its transparent film stops the penetration of contaminants, facilitating the maintenance of pavers.

DIRECTIONS
BEFORE YOU BEGIN
ALWAYS TEST on a small hidden area of approximately 4 sq. ft. to ensure that result meets your expectations (see Warranty). ALWAYS READ the complete instructions at techniseal.com before using this product.
• Do not apply to stamped or poured concrete.
• Do not apply to natural stone or wet-cast pavers.
• Do not apply to polished materials.
• Apply only to a bare material or to materials previously sealed with WL5 or WL4 Protector from Techniseal.
• Wait until the Protector is worn to recoat the surface (minimum 2 years).
• With the appropriate Techniseal stripper, remove any unknown coating that was previously applied.
• Wear adequate protective clothing and an OSHA approved respirator for acetone.

SURFACE PREPARATION (ESSENTIAL)
1. Cover vegetation, vehicles and adjacent surfaces that are not to be treated.
2. Remove stains with the appropriate Techniseal® stain removers.
3. Prepare the entire surface with Techniseal® Paver Prep (efflorescence cleaner), as directed on product label.
**APPLICATION**

**Application Conditions:**
- Surface must be clean, dry and warm to the touch.
- Temperature must be between 50 and 85°F.
- It is important that the temperature remains over 50°F for the next 24 hours.
- No rain forecasted for the next 24 hours.
- Sprinkler system must be turned off.
- Use a consistent application method over entire surface.

**Necessary Tools:**
- Solvent-resistant, low-pressure airless sprayer (<50 psi) or pump sprayer (best practice)
- Techniseal® Slit-Foam Roller or 3/8” polyester nap rollers and solvent-resistant paint tray

_Do not dilute. Shake well or stir product before and during application._

**Sprayer Application (Best Practice):** Work in sections of no more than 50 sq. ft. **Saturate** surface with a coat of Protector. With a roller, remove the excess from the surface before it dries (this step is critical for textured pavers). Repeat for subsequent sections, maintaining a wet edge to prevent overlap marks.

**Roller Application:** Work in sections of no more than 50 sq. ft. **Saturate** the surface with a coat of Protector, avoiding accumulation of excess product (this step is critical for textured pavers). Maintain a wet edge to prevent overlap marks.

**CAUTION**
- Any new concrete product has the potential to produce efflorescence (whitish salts) on its surface. This Protector, like any film forming coating, carries a small risk of trapping efflorescence beneath its film. Consult the paver manufacturer or contact Techniseal® at 1-800-465-7325 for more information. • Do not attempt sprayer application on windy days. • Do not apply this product over a blotchy or hazed surface. • Inadequate surface cleaning can result in uneven finish. • This product will make the surface more slippery when wet. If slipping is a concern, consider adding SureFoot anti-slip grit (60102089) to the Protector before the application. • An over-accumulation of product could lead to surface whitening. • Wait 30 days after the installation of new polymeric sand before sealing the pavers. • Extreme climate or heavy traffic can limit product longevity.

**TRAFFIC**

Pedestrian: 24 h. / Vehicular: 48 to 72 h. Block access during that period.

**COVERAGE**

Single-coat application. 1 gal. covers up to 150 sq. ft. / 5 gal. cover up to 750 sq. ft. Coverage will depend on joint width and type as well as surface porosity.

**STORAGE AND SHELF LIFE**

Store in a cool, dry place.

**CLEANING & DISPOSAL**

Wash tools with lacquer thinner. Consult your retailer or municipality regarding the disposal of empty containers or unused product.

LIMITED WARRANTY

Having no control over the use of the products, Techniseal® does not guarantee finished work. Replacement of any defective product shall be the buyer’s sole remedy under this warranty. A proof of purchase will be required for any claim. Before using this product, user shall determine the suitability of the product for its intended use, and user alone assumes all risks and liability whatsoever in connection therewith. User shall test product in a small inconspicuous area (approx. 4 sq. ft.) under projected conditions of use. In the event that no test was carried out, the warranty will only apply to 4 sq. ft. This limited warranty excludes any liability for any consequential, incidental, indirect or special damages. Except for the limited warranty described above, manufacturer specifically disclaims and excludes any other express warranty, any implied warranty of merchantability of goods, and implied warranty of fitness of goods for any particular purpose.
