## IT ALL STARTS WITH THE RIGHT JOINTING PRODUCT

**THE SMART CHOICE FOR YOUR EVERYDAY INSTALLATIONS**

Ideal for residential projects

Designed for optimal jointing of interlocking pavers

Ideal for narrow joints from 1/16" - 1/2" with intersecting spaces up to 1"

For pedestrian and low-traffic areas such as driveways, walkways, patios, etc.

2 main colors: Grey and Tan (colors vary by region)

**HIGH-PERFORMANCE JOINTING SAND VALUED BY TOP INSTALLERS**

For residential, commercial, industrial and public projects where mechanical compaction is possible and/or mandatory

Ideal for concrete, wet-cast, textured or clay pavers and porcelain tiles<sup>1</sup> (only if mechanical compaction is possible)

For false joints

Ideal for joints from 1/16" - 1" with intersecting spaces up to 2"

For high-humidity areas, with heavy or no slope and high-traffic areas

4 main colors: Black, Grey, Ivory, and Tan (colors vary by region)

**THE FIRST POLYMERIC JOINTING PRODUCT SPECIFICALLY DEVELOPED FOR FLAGSTONES**

For residential, commercial, industrial and public projects where mechanical compaction is either not possible or traditionally not used

Ideal for flagstone, concrete and wet-cast pavers such as imitation CobbleStone, highly textured surfaces, large slabs and porcelain pavers<sup>1</sup> (where joints are 1/4" or larger)

For false joints

Ideal for joints from 1/4" - 2" with intersecting spaces up to 4"

The true alternative to mortar, stone dust and polymeric stone dust

2 main colors: Grey and Tan (colors vary by region)

**A FASTER & CLEANER SOLUTION FOR GROUTING PORCELAIN PAVERS**

For residential, commercial, industrial and public projects where mechanical compaction is possible and/or mandatory

Ideal for porcelain pavers, calibrated natural stone such as granite, marble and travertine pavers<sup>2</sup>

No mixing required, fast and easy

For joints from 1/16" to 1/2"

A faster & cleaner solution for grouting porcelain pavers

Available colors: Beige Agate, Black Onyx, Grey Moonstone and White Pearl

**A JOINTING COMPOUND THAT WORKS UNDER WET OR DRY WEATHER CONDITIONS**

For installations carried out on draining base, with NextBase™, cement/sand bedding. A porous draining base is required for proper installation

Ideal for natural stone, concrete pavers, wet-cast pavers, clay pavers, large slabs and outdoor porcelain<sup>1</sup>

Save unused material for the next job site!

Ideal for joints from 1/8" - 2" with intersecting spaces up to 4"

For walkways, pool decks, patios and non-vehicular areas

Available colors: Black, Granite, Ivory and Tan

<sup>1</sup> Refer to NextGel™ PORCELAIN, a dedicated solution for porcelain pavers  
<sup>2</sup> Refer to NOCO™ and STORM™, dedicated solutions for natural stone
