# EDGE BOND™

Powered with NextGel

## NEXTGEL™ FORTIFIED HARDSCAPE CONCRETE EDGING

EDGE BOND™, with maximum workability, is the perfect alternative to plastic edging and spikes.

- FASTEST & EASIEST installation on the market
- More than 10% extra coverage
- Ideal for permeable installations
- Smooth, uniform finish
- Maximum workability
- Dispersible reinforcement fibers

EDGE BOND™ is the perfect choice for:

- Traditional, open graded or permeable installations
- NEXTBASE™ foam panel installations
- Concrete overlay installations
- Concrete pavers, wet-cast pavers, clay pavers, natural stone, slabs, textured pavers
- Commercial, residential and public projects
- Pedestrian and vehicular use

NextGel™ is a revolutionary technology that radically transforms and improves the properties and behavior of jointing products and additives.

## DIRECTIONS FOR USE:

### NECESSARY TOOLS:

- Measuring cup
- Wheelbarrow or mortar pan
- Shovel
- Hand trowel, preferably 4" wide
- Rag, sponge or small vinyl brush for cleaning

### BEFORE YOU BEGIN

- Installation of EDGE BOND™ is recommended to be done right before mechanical compaction of the hardscape material.

### INSTALLATION

- Remove bedding layer (sand or chips) on the entire perimeter of the installation.
- Empty contents of EDGE BOND™ into a wheelbarrow.
- Add 2.5 quarts of clean potable water per 50 lb bag of EDGE BOND™. Mix until blend is uniform.
- Using a shovel, place the EDGE BOND™ in the trench created.
- Using a hand trowel, shape EDGE BOND™ into a triangular profile at a 30° to 45° angle.
- Complete your installation by back filling with topsoil, mulch or decorative stone over the EDGE BOND™ edging.

### INSTALLATION TIPS:

- 0.625 US gallon = 2.5 quarts = 10 cups = 80 fl.oz. = 2.37 liters
- Temperature must be above 40°F (4°C) for 48 hours following installation.
- Sprinkler system must be turned off.
- Do not mix product with cement, sand or any other material.

- Ready-to-use - simply add water
- Paintable or sealable if used as decorative edging
- Freeze and thaw resistant
- Alternative to plastic edging and spikes
- Additional strength and stability (when compared to traditional plastic edging)

Item #: 70975209  
Color: Grey  
Packaging: 50 lb bag  
(56 bags per pallet)

**COVERAGE** For a 50 lb bag : 16 - 20 linear feet  
The amount required will depend on the shape and size of the edging.
